

**A New Kind of Business Conversation!**

**Calliflower Premium** is the tool for having simple and inexpensive online collaborations. **Calliflower Premium** is a single solution that combines conference calling, document sharing, text chat, and more in an easy and intuitive online environment. With **Calliflower**'s rich and easy to use toolset, you can host any kind of meeting you want ranging from a simple conference call to a webinar with 100 or more participants. **Calliflower** also makes it easy to keep a record of the meeting, by making recordings and copies of important documents accessible to all participants after the call.

**Calliflower Premium** is optimized for mobile collaboration right from meeting setup, during the in-call experience and continues to provide a call record after the meeting is complete to ensure productivity at your desk or on the road.

With call-in numbers in 32 countries and 150 cities today, **Calliflower Premium** is a local call away from most North American centers, and many European and Asian cities as well.
